To Whom It May Concern

Edcon has used the services of Total Placement Solutions, for the recruitment of people with disabilities. Candidates that were referred to clients were of excellent caliber and very thought out in terms of the selection for the various areas of our business.

Total Placement Solutions have always been professional in their interactions with staff at Edcon and constantly displays a great sense of urgency with contracts.

An admirable quality is their level of expertise, which consistently stood out. Coupled with this is the fact that they go beyond their roles as talent agents.

Edcon highly recommends Total Placement Solutions as a service provider as they have excellent work ethics and integrity. Their passion for people gives them the added edge in sourcing for talent.

Please do not hesitate to contact me should you require further information.

Regards

**Arusha Dasrath**
