To Whom It May Concern

Supreme Consulting have outsourced the service of Total Placement Solutions, in areas of recruitment in instances where the work load of Supreme Consulting inhibited us taking on more contracts. Candidates that were referred to clients were of excellent caliber and often, if not placed, in the intended role, clients were happy to look at them for alternative roles.

All of my encounters with Total Placement Solutions have always been professional and all contracts were dealt with a great sense of integrity and urgency. Each contract began with a briefing meeting, followed by a list of short-listed candidates to present to the client.

Servicing various industries encompasses a different set of knowledge and skill. Hence, the level of expertise had to vary all the time. This is a quality that stood out the most. Personalized service goes hand-in-hand with Total Placement Solutions and they go beyond their roles of just sourcing for talent.

Supreme Consulting most certainly recommends Total Placement Solutions as a service provider as they have stood the test of time in the war for talent. They are a bunch of preservers that are driven by their passion for people and high ethical values.

Please do not hesitate to contact me should you require further information.

Yours Sincerely,
Arusha Dasrath
